

PRO-GK SIZE GUIDE

The following points are things to consider when purchasing goalkeeper gloves:

- Gloves should be worn slightly larger than hands
- Fingers should not touch the tip of the gloves
- Removing any finger protection will make a glove half a size larger.

Glove Dimensions

Measure the length of your hand from the tip of your middle finger to the point where your thumb meets your wrist. Again, round up to the nearest full inch and add a further inch as above.
